EXPERIENCE

Desktop & Web App Development	Employer: NCSU CUACS IT Group Dates: February 2020 to current Role: Applications Developer Work Summary: Redesigned and developed Pascal legacy desktop application in JavaScript using ElectronJS platform with Node.js and SQL. Built desktop version in a way that would allow conversion to web app. App is designed to scan and score academic tests done in pencil and generate reports from test data.
-------------------------------	---

ITS Web Support	<p>Employer: UNCW Information Technology Services Web Support Team Dates: November 2018 to January 2020 Role: Web Support Technician</p> <p>Work Summary: Resolved service requests from faculty, staff, and administrators in Team Dynamix ticketing system. Prepared university websites for launch. Investigated the source of technical issues and utilized conventional and creative solutions to problems. Improved design of and added new advanced features to web pages.</p>
Data Reporting	<p>Employer: UNCW Graduate School Dates: February 2019 to Current Role: Technology Support and Data Analyst</p> <p>Work Summary: Provided and modified reports generated in SQL Server Reporting Services (SSRS). Communicated with clients (program coordinators, staff, administrators). Processed degree audits in Ellucian DegreeWorks. Edited degree audit parameters in Scribe language. Solved admissions and registration problems in Ellucian Banner.</p>
UNCW-Wilmington Website Redesigns	<p>Clients/Employers: Research Department, Graduate School, Office of Sponsored Programs and Research Compliance (SPARC), Office of eLearning (now called Distance Education and e-Learning), College of Arts & Sciences (CAS) Dates: February 2017 to January 2019 Role: Front-End Web Developer</p> <p>Work Summary: Worked on a contract basis for various departments at UNCW.</p> <p>Redesigned website for each client. Improved UX and UI design—site structure, navigation, page layout, etc.—in accordance with Usability.gov guidelines and department’s branding (or rebranding). Creatively displayed content provided by department staff. Improved aesthetics and reduced text with more visual interface. Eliminated whitespace by revising the layout as needed. Commissioned icons from UNCW graphic designers for one project. Added animations and interactive features. Submitted drafts of webpages for approval.</p>
